## **artlogic announces new office in Amsterdam**

artlogic Netherlands proudly announces the opening of their new office in Amsterdam

Noord. After navigating the challenges of the pandemic, the office team is excited to welcome partners and crew members to the new physical location. Situated at Kroppaarsstraat 1A, this office symbolizes the growth artlogic NL has achieved, providing them with the space and flexibility to further our ambitions.

"We are extremely happy with our new office," says Merel Kuilder, Branch Manager of artlogic NL. "The location puts us back in the heart of the event industry." Recently, crew members got to see the new office for themselves during the first crew meeting. "Such a crew meeting is of course the ideal opportunity to bring the crew together again and kick-off the upcoming festival season," says Merel Kuilder.

artlogic invites everyone to visit for a cup of coffee and a show you around and discuss future possibilities.

### **About artlogic**

artlogic is an experienced personnel service provider for the media and events industry with the mission to offer secure, local, cost-effective, and stress-free personnel solutions. The backbone of the service is the self-developed software solution SquidWeb, which ensures smooth and transparent digital order processing. The company has been recognized for particularly sustainable personnel management, operates carbon-neutrally, and is a founding partner of the One Crew | One Tree program.

The artlogic Network was founded in 1999. Today, artlogic is active in Austria, Belgium, Cyprus, France, Germany, Portugal, Spain, and the Netherlands and also has a network of partner companies in many other countries.
